

## **Spring Promotions 2011**

### **1 Kids Free**

The first dental appointment for a child is important for developing a positive dental experience and will help define their attitude for the rest of their lives. Early preventative care and advice can help reduce the need for treatment later in life. We are happy to carry out an examination of the kid's teeth and gums while you attend for a check up and advise about good oral hygiene and diet advice. We recommend attendance from the age of one.

Terms:

1. One free visit per year
2. Parent has appointment booked at same time
3. Up to two kids per visit
4. Age limit 10 years.

### **2 Free exams under PRSI scheme**

- One free examination once every 12 months
- Subsidised fee of €60 for hygiene visits once every 6 months.

### **3 Free orthodontic examination**

- Free orthodontic examination for adults and children
- Orthodontic treatment possible for all ages now.
- Modern braces such as **Damon** are particularly suitable for adults and extractions are often not necessary.
- Invisible braces such as **Invisalign** aligners available
- Short term braces such as 6 month braces available.

### **4 Free dentist examinations with hygiene treatment**

- For patients without PRSI cover.
- Free routine dental examination when appointments made for the same time.
- Hygiene fee is €70.

## **Routine Examinations – what's included**

- Check health of Teeth.
- Check health of Gums.
- Preventative Dental Advice.
- Oral cancer screening.
- Digital Photographs if necessary.
